Tom Dixon. x bute

Denim is a heavy-duty cotton and wool blend twill, which has a unique aesthetic inspired by traditional Denim workwear. This heritage influence was adapted to create a robust, timeless material, which can be specified into architectural and hospitality projects around the world. Using only natural fibres, this fabric has been created with sustainability at its core and is fully recyclable.

The narrative of two intrinsically British companies, each with a mutual respect for quality, sustainability and the environment, provided the foundations for this unique collaboration, and celebrates the British heritage of both brands.

The quality of the craftsmanship and the appreciation for detail in the design and manufacturing process has resulted in a collection of fabrics that are distinctive, practical and beautiful. This collaboration combines Tom Dixon's sculptural and eccentric design aesthetic with Bute Fabric's specialist skills in the traditional art of weaving, resulting in a versatile collection that captures the spirit of both brands.
